WHO WILL BELOW ON TOTEM POLE?

WIVES OF CELOTEX EMPLOYEES are watching with interest how well their husbands do in the good housekeeping contest now underway between the various departments at the big plant southwest of Hamlin. The colorful totem pole pictured above, erected at the plant entrance, reflects the position of the eight departments participating in the project. The removable heads, representing the sections, are moved up and down the pole to show positions of the departments. Good results are being obtained in the housecleaning plan, say Celotex officials.

## New BCD Manager Comes Here Friday

New manager of the Hamlin Board of Community Development, Orville D. Roland, will move to this Northwest Jones County metropolis Friday, and assume his new duties Saturday, August 1.

Elected by the board of directors of the BCD Monday week, he will be the first Chamber of Commerce full time manager in Hamlin since 1956, when Onis Crawford resigned to go to Merckel Chamber of Commerce.

Roland is 40 years of age. He and Mrs. Roland have two children—a boy, Michael, 12 years old; and Nancy Jo, nine. Mr. and Mrs. Roland are members of the Methodist Church.

The new manager attended high school at Greenville; attended the Dallas College of Southern Meth-

## Good Housekeeping Project at Celotex Being Boosted by Novel Totem Pole

Good housekeeping contest began June 1 at the Celotex plant west of town that is creating considerable interest among employees, it is reported by Jerry A. Howard, personnel and safety director at the plant.

A colorful totem pole, made up of eight inter-changeable heads representing the eight departments participating, has been erected at the entrance to the plant grounds where everyone can view it.

Celotex departments participating are board plant, calcining, loading, maintenance, miscellaneous, sacking, quality control, and the quarry.

Positions of the head from top to bottom is determined on how inspection teams rate the respective departments with regard to good housekeeping. Bottom place is far from being desirable, Howard says, since it points a finger at the department with the poorest housekeeping record in the plant.

Inspection teams consist of one supervisor and two hourly employees. The supervisors rotate every two weeks and the hourly employees every week. This gives most of the hourly employees a chance to make an inspection.

Early results were amazing in both safety and good plant housekeeping, officials reported. Some

of the old-timers have said the plant is the cleanest they have ever seen it.

A slogan, "Who Will Be Low Man on the Totem Pole?" was adopted, and is shown on the base of the pole.

"Most of our employees now realize that good housekeeping plays an important part in our plant safety program, and that poor housekeeping reflects a bad impression on them as well as the plant and the individual departments," Howard says. "And poor housekeeping increases their chances of having an accident. None of them likes to get hurt. Nobody wants to lose pay due to an accident and nobody likes to work in an unkept department."

"This is one of the reasons why our employees have such a wonderful safety record. The group has gone 825 days, which represents over 1,000,000 man hours, without a loss time injury. Very few industrial plants such as ours have ever reached such a feat as 1,000,000 man hours without a loss of time injury. We are extremely proud of every employee."

Howard reports he has had several inquiries from wives of some employees as to where their husbands stood on the totem pole. "We always tell them they are in the department on top," he said with a dry grin.

# Jones County Fair Shapes As Buildings Arranged for

## New Lights to Be Ready for Riding Club Junior Rodeo

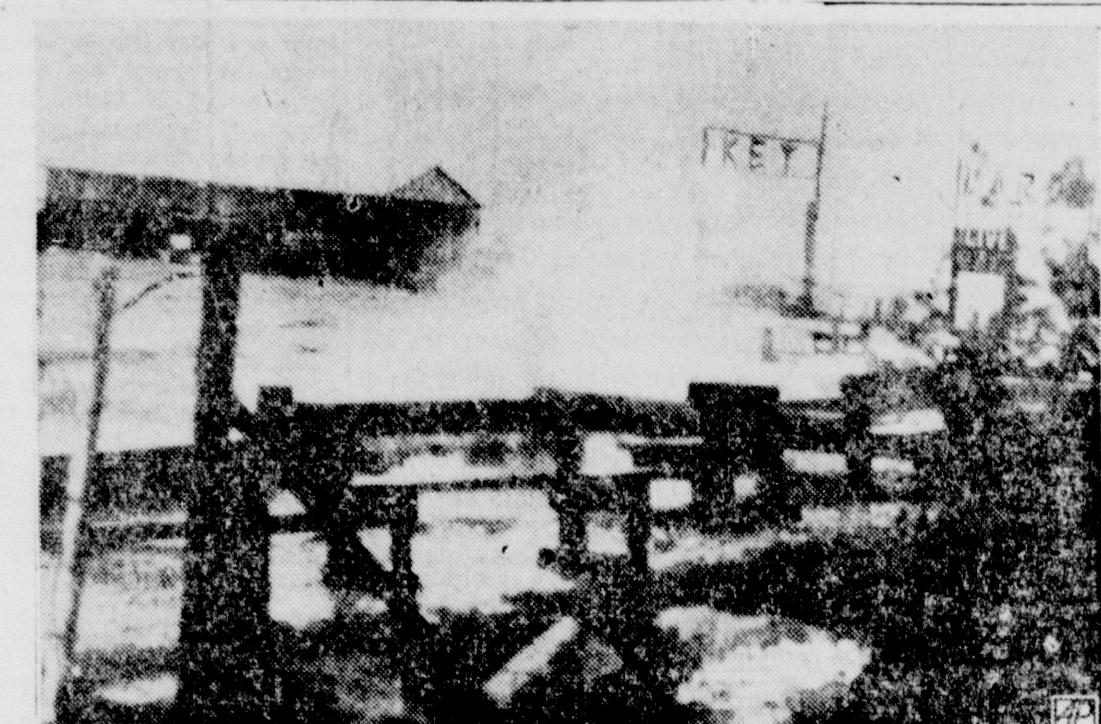

To be put into use for the first time during the forthcoming first annual Junior Rodeo at the new rodeo grounds, of Hamlin Riding Club in North Hamlin will be the new elaborate lighting system being completed this week by the sponsoring Riding Club, it is announced by President L. C. Bonds.

The rodeo, scheduled Thursday, Friday and Saturday nights, August 13, 14 and 15, is being widely advertised, and already indications are that the 10-event show will have a full slate of performers for the show. Performances are scheduled each evening beginning at 8:00 o'clock.

Although permanent seating facilities for the newly organized Hamlin Riding Club's arena have not been constructed, promoters believe the crowds can be amply handled by placing folding chairs in the backs of trucks and pickups stationed all around the big arena. Permanent seats are in future plans of the organization, which already has spent several thousand dollars at the arena, located north of the Katy Railway depot on the Aspermont Highway.

Entry blanks have been printed, and contestants already are asking for them. The contestants will be 19 years of age or under. Several events are for 14-year-olds and younger.

A complete program of events that will be distributed at the show is being worked up this week by rodeo promoters.

HURRICANE NEARS—Spray from waves almost obscure a fishing pier on Clear Lake at Kemah as winds in advance of Hurricane Debra buffet the coastal area. Residents reported high winds and heavy rains as the tropical storm neared the Texas coast.

## Rev. Calvin Bailey Accepts Pastorate in Bristol, Virginia

## Booster Groups to Advertise Junior Rodeo Next Week

A motecade of Hamlin business and professional men, and others who will help to advertise the forthcoming Hamlin Junior Rodeo being sponsored August 13, 14 and 15 by the Hamlin Riding Club will visit neighboring communities next Thursday and Friday, according to L. E. (Gene) Prewitt, chairman of the rodeo advertising committee.

Special hat bands for boosters are being printed, and the boosters will carry advertising material on the show.

Business concerns are encouraged to arrange to have at least one representative from each firm to make the trips. Cars will be needed, too.

Boosters will meet at the Board of Community Development each of the two mornings at 9:00 o'clock.

REV. BUFORD BATTIN To Be Evangelist In Nazarene Meet

Rev. Buford Battin of Lubbock will be the visiting evangelist in a revival meeting beginning next Wednesday evening, August 5, at the Church of the Nazarene in Hamlin, it is announced by Rev. R. T. Jarrell, the pastor.

Services will be conducted each evening at 7:30 o'clock, and will continue through Sunday, August 16.

Rev. Battin is a full time evangelist for the Church of the Nazarene. He has had wide experience as a minister, having served as pastor in San Antonio and Dallas besides several years as an evangelist, conducting campaigns in many of the states and in Canada. He is a graduate of Eastern New Mexico University.

"Rev. Battin is a forceful preacher, presenting a clear exposition of the scriptures in a convincing manner," declares Pastor Jarrell. The church joins the pastor in extending to you and your friends a hearty welcome to each service.

## Golf Club to Elect New Officers Tonight

Members of the Lakeview Golf Club of Hamlin are scheduled to meet in business session this (Thursday) evening at 8:00 o'clock at the Farmers & Merchants National Bank, it is announced by Joe Ford, secretary of the club.

Officers for the ensuing year will be elected at the meeting, and other business matters attended to, it is announced.

## DePriest School Will Open August 10 In Order to Recess Later

Steve Morgan, principal of DePriest School, and C. F. Cook, superintendent of the Hamlin Schools, announce that DePriest School will open August 10.

This early opening is due to the fine prospects of crops in this area. Many of the students will assist with the crop harvest. There will be several weeks of school, then when the proper time arrives for peak cotton picking, the schools will be dismissed so the students might assist farmers of the community.

New students must have their transcripts for the school they last attended, Morgan points out.

Further announcements about the school opening will be made in next week's Herald by Principal Morgan, who expects an increase in attendance over the 190 enrolled last term.

## VISIT FROM MART.

Mr. and Mrs. W. E. Absher of Mart visited Saturday and Sunday with their son, Charles Absher, and family and Mr. and Mrs. Joe A. Simpson.

WET WEST TEXAS—Lipan Flat, near San Angelo, farm kids like Doris Mae Moeller, 13, and Roy Lee Moeller, 16, are having a new experience. They have never seen so much water to wade in as they have lately. The Moeller farm has received 11 inches of rain since the wet spell began several days ago.

## Entry Lists for Most Divisions of Show Completed

With all arrangements of the Jones County Fair moving in its final stages, the prospects for a fine show are very bright, Woodrow Simmons, president, said early this week.

Superintendents and assistants for the eight departments of the fair have completed the entry lists for the show, slated September 4 and 5 in Anson.

Adequate facilities for the fair have been secured just east of the business section in downtown Anson. They include a vacant lumber yard, office buildings, sheds, grounds, the Lions Club hall, some business buildings, and several vacant lots.

The lumber yard facilities, donated by Burton-Lingo Lumber Company, will be used for most of the livestock and crop exhibits, and the Lions Club building will house the women's and girls' division exhibits. The vacant lots and other nearby buildings will supply ample room for concessions and convenient parking.

Contracts are being negotiated for the concessions, including rides and entertainment for the two days and two nights, Simmons declared.

Entry cards have been mailed to vocational agriculture teachers, 4-H Club leaders and Home Demonstration Club officers throughout the county. Individuals may secure the entry cards from their teacher, leader or sponsor or from the extension agents in Anson.

See COUNTY FAIR—PAGE 3

## Mrs. L. N. Minton Awarded \$159 by Appreciation Day

The Appreciation Day treasure chest got another felt—and Mrs. L. N. Minton of Hamlin got \$159 Saturday afternoon at the regular weekly drawing promoted by Hamlin merchants. Mrs. Minton's 30 per cent coupon took that percentage of a pot of \$531.

Consolation awards went to three other coupon ticket holders as follows: Lucille Bailey of Hamlin received a car wash and lubrication from Prewitt Motors; Mrs. Van Huling received 10 gallons of gas from Buddy Wells Service Station; and L. M. Huddleston of Hamlin received a gift certificate from Kincaid Gas and Appliance Store.

In the Saturday, August 1, drawing at 4:00 o'clock the treasure chest will contain \$452.57. Consolation awards will be provided by Wilcox Grocery, Fannin Service Station and Tommy's Flowers.

## Silage Clinic Set at Agent's Anson Office

There will be a clinic on silage in the county agent's office in Anson on Monday evening, August 3, at 8:00 p. m., according to County Agent Kirby Clayton.

Paul Marion, superintendent of the Spur Experiment Station, will be on hand to give farmers the latest information on varieties, yield, storage, feeding and the value of silage fed through steers.

Everyone interested in silage is invited to attend this meeting.

## Who's New This Week

Mr. and Mrs. Kenneth Holloway of Spring Lake are announcing the birth of a son. He arrived July 19 in a Plainview hospital and weighed seven pounds 13 ounces. He has been named Andrew Scott. Grandparents are Mr. and Mrs. Henry Holloway of Anson and Mr. and Mrs. Tarlton Willingham of Hamlin.

## To Preach Final Services in Local Church August 9

Rev. Calvin Bailey, pastor of the Hamlin First Baptist Church for nearly three years, resigned Sunday morning to accept a new pastorate in Bristol, Virginia. He will make the move following the Sunday services, August 9.

New pastorate will be at the Euclid Avenue Baptist Church, the second largest of 15 Baptist churches in Bristol, a city of some 55,000 population, located on the Virginia-Tennessee line. The church has a membership of 1,700 and Sunday School attendance of 550 to 600 each Sunday.

The Bristol church has been without a pastor for 11 months, following resignation of Dr. Raymond Smith, who went to Norfolk, Virginia, last August. The church is ready to begin construction of a \$300,000 sanctuary, which has already been blueprinted and financed.

Rev. Bailey came to the Hamlin church on October 9, 1956, from the Second Baptist Church in Ranger. He is a 1955 graduate of the Southwestern Baptist Theological Seminary at Fort Worth. The Baileys have three children—Sylvia, eight; Danny, four; and Doyle, six months.

Both Rev. and Mrs. Bailey are natives of Virginia. They went in late July back to their native state to visit relatives. Unknown to them before they left, he was asked to preach at the Bristol church on July 5. Mrs. Bailey became ill and underwent surgery, and Bailey again was asked to preach July 12, and at the close of the services he was asked by the pulpit committee to consider a call. The call was extended by a unanimous vote of the church on July 19.

First Sunday in his new pastorate will be August 16 for Rev. Bailey who plans to move there the previous week.

Active in civic, school and other secular affairs of Hamlin community, Bailey has been popular among people of all faiths.

## Pastor Campbell to Lead Calvary Revival

The new pastor of the church, Rev. Royce Campbell, will be the evangelist in a revival meeting that begins Sunday, August 2, at the Calvary Baptist Church in South Hamlin. Bro. James Wood and Bro. R. J. Cox will be in charge of the music program for the meeting.

Morning services will begin at 10:00 a. m., evening prayer services at 7:45 p. m., and singing at 8:00 p. m.

## Many Using Picnic Facilities at City Park

Use of the Hamlin City Park for picnicking parties has greatly increased in recent weeks, the park keeper declares. Picnic areas have been expanded and facilities improved.

With the recent addition of considerable new playground equipment by the city, the park is one of the best equipped in the section.

## MABERRYS HAVE GUESTS.

Mr. and Mrs. Maynard Olsen of Stamford, Vyrion Olsen of Abilene, Mr. and Mrs. Lee Maberry of Snyder, Tucker Newland of Hamlin were Sunday guests of Mr. and Mrs. L. B. Maberry.

The Country Parson

"I like to see folks behave so you can say nice things about them without flatterin'."

## CENSORSHIP THROUGH TAXATION NOT FAIR

Ask anyone what the Internal Revenue Service is, and you'll get some such answer as this: "It's a federal administration agency, whose duty is to collect taxes as provided in revenue laws passed by Congress."

But the Internal Revenue Service is going far afield from its proper and established function. It is in effect, setting itself up as a censor of what enterprises and organizations may say in their advertising, on pain of heavy tax penalties. It is also making decisions that are purely within the province of business management.

Here is the remarkable and menacing story:

Internal Revenue Service has ruled that electric utility companies cannot regard the cost of institutional advertising, which presents their side of the public-vs.-private power controversy, as a legitimate business expense, deductible in income tax returns. This ruling has affected area companies, including West Texas Utilities Company, which serves Hamlin and Central West Texas. The utilities concern has been required to go back several years and prepare tear-sheets (proof of publication) of all its advertising to see that none of the advertising taken as a deductible item contained institutional advertising of the banned nature.

Internal Revenue Service has also ruled

that the cost of literature opposing socialism issued by one of the country's most respected professional organizations, the Association of American Physicians and Surgeons is no exempt from tax.

Internal Revenue Service has also disallowed public relations advertising placed over a four-year period by the Timken Roller Bearing Company. This advertising discussed the bill of rights, capitalism vs. socialism, principles of taxation, and other such matter.

In other words, Internal Revenue Service holds that advertising designed to sell products or services is a legitimate business deduction—but that advertising designed to maintain an economic and political climate in which private enterprise may successfully produce those products and services is not. It is attempting to muzzle the right of people to speak their minds freely and without penalty—and, in doing that, to prevent other people from knowing and weighing both sides of controversies.

If Internal Revenue Service's incredible stand is maintained, no one will be immune. Anyone may be faced with the choice of accepting bureaucratic censorship—or of paying a heavy penalty for exerting absolutely basic rights which are supposed to be guaranteed by the bill of rights. This is one of the ways in which dictatorship begins.

## Alert Minds for Drivers

When an accident has happened, how many times have we wished that we could live those few seconds over again. In most of the cases the accident would not be repeated. The reason is obvious: our mental processes would size up the situation and show us how to proceed safely.

In those few seconds—prior to the accident—could be lived over, one factor would be changed: that of mental attitude. This one factor could have prevented the tragedy, be it great or small. The hazard might still have existed, but when we stopped for a brief moment of thought to consider the things that might occur, the hazard would have been rendered harmless and we would have remained unhurt.

It is very much like removing a fuse cap from a dynamite charge. The potential destruction of the dynamite is still there, but nothing happens because there is nothing to set it in motion.

So it is with most accidents. According to the Texas Safety Association, most accidents occur when a day-dreamer comes along and rouses them to life. An accident seldom claims a victim without the help of some person who didn't think.

## Nuggets of Thought

An acre of performance is worth a whole world of promise.—William Dean Howells.

I had rather do and not promise than promise and not do.—Arthur Warwick.

Every civilization rests on a set of promises.—Herbert Agar.

We promise according to our hopes, but perform according to our selfishness.—Rochefoucauld.

Duty is the sublimest word in the language; you can never do more than your duty; you should never wish to do less.—Robert E. Lee.

Every duty which we omit obscures some truth which we should have known.—John Ruskin.

It may make a difference to all eternity, whether we do right or wrong today.—James F. Clarke.

A duty dodged is like a debt unpaid; it is only deferred, and we must come back and settle the account at last.—Joseph Fort Newton.

Simple duty hath no place for fear.—John G. Whittier.

## Avoiding Temptation

There was once an anxious man who asked his king how to avoid temptation. The king told the man to take a vessel brimful of oil, and carry it through the streets of the city without spilling one drop.

"If one drop is spilled," said the king, "your head shall be cut off," and he ordered the executioners, with drawn swords, to walk behind the man to carry out his orders.

There happened to be a fair going on in the town, and the streets were crowded with people. However, the man was very careful, and he returned to the king without having spilled one drop of the oil.

Then the king asked, "Did you see anyone while you were walking the streets?"

"No," said the man. "I was thinking of the oil. I noticed nothing else."

"Then," said the king, "you have learned how to avoid temptation."

## Editorial of the Week

MOTHER EARTH'S GETTING CROWDED.

There is still much room in which to breathe in these good United States. Yet America has passed the 175,000,000 mark in population and is still growing. Exciting experiments in outer space flight have, therefore, more than scientific significance. Fantastic though it may seem, some day men may have to move to outer space because his own little planet is over-crowded!

Donald Cox and Michael Stoika point this up in a timely new book, "Spacepower," from which Grit is printing a series of excerpts.

There are many reasons for going into space, but economic one alone is compelling. The authors say: "The economic history of mankind is the destruction of his natural resources. If allowed to continue, it will some day render this planet as dead as the moon." Meanwhile there is danger of the world's becoming over-populated. In Christ's time the population was an estimated 250,000,000. Today this number has increased to 2,600,000,000 and is growing at 43,000,000 a year, while new medical discoveries are cutting down on the ravages of disease and extending the life span.

There is nothing to worry about in our time. Yet, figures on population growth as meaningful for the future as the experiments at Cape Canaveral that herald some day man's rocket rides to the moon.—Grit Magazine.

## RECALLING Other Years

★ Being news items taken from old files of Your Home Town Newspaper The Herald.

### THIRTY YEARS AGO.

In scanning the files of Your Home Town Paper, we find the following news briefs, taken from the issue of The Hamlin Herald dated July 26, 1929:

Work is progressing on Highway 92 from Stamford west to Tuxedo, the rock base to be completed this week. Right-of-way on Highway 4 from Hamlin to Anson also is being completed so that work on that stretch may begin soon.

J. W. Ezell returned Tuesday from a 10-day trip to California where he visited his brothers, Lewis and W. R. Ezell. Mr. and Mrs. C. C. Prater and son, Charles, accompanied by Mrs. Prater's sister, Mrs. Hugh Latham of Brownwood, made a trip to Carlsbad Caverns Monday.

Mrs. F. Y. Wilson and son, Roy, are visiting relatives in Fort Worth this week.

Mr. and Mrs. L. P. Cozzens of Abilene have spent several days here with old friends and neighbors.

Mrs. W. G. Weinke and daughter, Adine, and son, Lewis, of Old Glory were here Tuesday shopping and visiting their daughters and sisters, Elsie and Roxie.

### TWENTY YEARS AGO.

From the files of The Hamlin Herald dated July 28, 1939, the following news briefs of 20 years ago are reproduced:

A. G. Arnett of Springfield, pioneer citizen of Hamlin, spent most of this week with friends and old neighbors in Hamlin. He is a charter member of the First Baptist Church here and was a builder and contractor.

W. L. Fletcher, rural mail carrier out of Hamlin and treasurer of the National Rural Letter Carriers Association, returned this week from attending several carriers' conventions in the East. He will leave by car within a few days for Portland, Oregon, to attend the national convention.

Mr. and Mrs. Paul Green are happy this week because of the arrival on July 21 of a daughter, who has been named Janice Jacette.

Lucille Newsom returned home Sunday after a week's visit with friends at Abilene.

Mrs. Tom C. Farrow returned from Lubbock Sunday after spending three weeks with her son, Jack, and wife.

### TEN YEARS AGO.

Events in the Hamlin community 10 years ago included the following, reprinted from the issue of The Hamlin Herald dated July 29, 1949:

The Lion Cubs, Hamlin junior football team, this week was preparing to go to Austin this week-end to participate in the state tournament. The local team won the title in the softball league of this district by defeating the Abilene Bolts.

Jeannine Johnston, daughter of Mr. and Mrs. H. A. Johnston, has been named by the Chamber of Commerce to represent Hamlin as queen in the Sweetwater Stampede in August.

Mrs. Harold Bolding and sons, John and Joe, of Dallas are guests of Mrs. Bolding's parents, Mr. and Mrs. J. B. Eakins.

Mrs. Ivan L. Howard and daughter, Mary, Ann of Dallas spent the past 10 days as guests in the home of Mr. and Mrs. Charlie Sellers.

### FIVE YEARS AGO.

Goings-on in the Hamlin community are reflected in the following news briefs, taken from the issue of The Hamlin Herald dated July 30, 1954:

H. G. (Pete) Andrews, Stamford attorney, was elected county judge over Roger Q. Givens as a result of the primary election Saturday as 4,274 votes were cast.

Money for prizes and expenses of the Tri-County Jubilee celebration, scheduled at Hamlin on September 11, is coming in nicely, according to Onis Crawford, manager of the Chamber of Commerce, sponsoring organization.

### ONE YEAR AGO.

News bits from the Hamlin Herald dated July 31, 1958, include the following:

Total of 3,378 votes were cast in Saturdays primary election, 154 more than were cast in June County in 1953.

Several fires in the Hamlin area in recent weeks have been caused by arsonists, officers have declared. A drive against the practice is being conducted.

Preliminary plans for organizing a Hamlin Riding Club will be discussed at a meeting of interested parties Monday evening at the First First Drive-In.

## Forthcoming 1960 Census Can Affect Congress Representation, Says Release

In 1960 the federal government will again take a census. Once Sam will be taking an inventory of his people as to where they are, what they do and other details about our approximate 180,000,000 Americans, points out Congressman Omar Burleson of Anson in his weekly news release to The Herald from Washington. His release continues:

The machinery is already being put in order to conduct this vast undertaking which will last only a few weeks. Some 170,000 persons will be employed on a temporary basis to assist the census bureau officials in this mammoth effort.

Since the executive department is under the control of the Republicans, it will be their first census since 1930. It will be their job to recruit people to do the work. All persons to be hired must pass a qualifying test showing their capable of gathering and submitting the proper information.

Why is all this necessary? It is to take a count of the population as it does every 10 years, but the

by the business interests in private enterprise and by state and local governments.

Countless decisions are made and actions taken based on the facts concerning the nation's population. Business depends on these statistics produced by a census in order to plan location, expenditures and other matters of judgment.

Decisions relating to the location of utilities, roads, schools, hospitals, water supply and other public planning is based on the numbers and types of people in a given area and the rate at which the area is changing in size and character. Details used in ad-

vertising of almost every product conceivable is a matter of judgment based on information from the census.

The application of many state, municipal and federal laws depends on the size of a state, county or municipal population, since this information is a qualifying factor.

Not the least important is the way the census figures affect our government. The number of representatives in Congress from the various states are based on population. After results of the census are known, states lose or gain representation in the Congress.

The U. S. Senate labor committee has approved a bill by Senator Hubert Humphrey which revises the old Youth Conservation Corps, along the lines known as the CCC in the early depression days. Just what the purpose of it is in this day and time is difficult to understand.

The small business administration has issued a pamphlet containing ideas in deciding where to locate a plant, about market analysis, and so forth. The title is "Management Aids for Small Business." It sells at the Government Printing Office for 45 cents, but if you will write your Congressman, 1531 New House Office Building, Washington 25, D. C., they will be furnished on request.

Although much has been done to overcome the law of gravity, it is still in effect. So is this truth: Hang on, you can't fall down until you turn loose.

Workers can steal by doing nothing when they are supposed to be working, but most of them don't look at it that way.

**NEAT-LOOKING—All-purpose jacket of cotton poplin is styled with knit trim on collar and under arms for free-swinging action. The jacket by Campus Sweater and Sportswear has been Zelan treated for water and spot repellency.**

## Sunday Schools Show Gain Sunday Over Previous Week Total

Sunday Schools of the 12 reporting churches of Hamlin showed a total increase Sunday over the previous week, a tabulation of attendance figures shows. The 1,169 Sunday total was 68 more than the week before and 10 more than the year ago total.

Attendance, by churches, for July 26, July 19 and a year ago follows:

Churches	July 26	July 19	Year Ago
Ch. of Nazarenes	72	62	86
Oak Gr. Col. Baptist	61	50	61
No. Cen. Baptist	75	83	75
First Baptist	302	350	300
Church of Christ	148	126	130
Tourneville Gospel	57	60	61
First Methodist	155	176	172
Assembly of God	50	45	55
Second Baptist	57	34	35
Mexican Baptist	49	46	32
Calvary Baptist	30	42	30
Faith Methodist	73	57	54
Totals	1169	1131	1159

## Ann Richey Tells Lions Group About FHA Convention

Chicago, Illinois, has many wonderful sights for a "country girl." Ann Richey reported to attendees at the Tuesday noon luncheon of Hamlin Lions Club at the old mill guest house when she gave highlights of her recent trip to the Windy City as a delegate to the national convention of Future Homemakers of America from Texas.

Ann, corresponding secretary of the Texas FHA, was among more than 200 girls from Texas at the national convention, which attracted over 2,000 girls from over the United States and possessions.

The convention, which themed new goals for the FHA next year, provided an interesting program. And the sightseeing in the big metropolis was great, the HHS girl reported. A feature of the tours was riding a high speed elevator in one of the city's skyscrapers that took her group up 40 floors in 22 seconds.

Tall Twister Calvin Bailey, who will be leaving Hamlin within two weeks, had a heyday at the session with his fine bank.

Besides the speaker no other guests were present for the Tuesday luncheon—a seldom occurring event.

## BEST ENGINES! One of 7 Big Bests Chevy gives you over any car in its field

Open invitation to excitement, the Impala Convertible... and America's only authentic sports car, the Corvette.

You've got more to go on than our say-so. Every motor magazine has given Chevy's standard passenger car and Corvette V8's unstinted praise. SPORTS CARS ILLUSTRATED says it this way: "... surely the most wonderfully responsive engine available today at any price." And if you want the thrill of a six, you still get the best of it in a Chevy.

**BEST ECONOMY** No doubt about this! A pair of Chevy sixes with Powerglide came in first and second in their class in this year's Mobilgas Economy Run—getting the best mileage of any full-size car, 22.38 miles per gallon.

**BEST BRAKES** Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR-conducted test of repeated stops from highway speeds.

\*National Association for Stock Car Advancement and Research

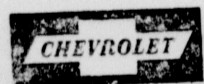

**BEST RIDE** A few minutes behind the wheel will leave no doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

**BEST TRADE-IN** Check the figures in any N.A.D.A.\* Guide Book. You'll find that Chevy used car prices last year averaged up to \$123 higher than comparable models of the "other two."

\*National Automobile Dealers Association

**BEST ROOM** Official dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room, for example, is up to 5.9 inches wider than comparable cars.

**BEST STYLE** It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN '59 THAN ANY OTHER CAR!

Try the hot one—visit your local authorized Chevrolet dealer!

## Department of Health Urges Filing For Copies of Birth Certificates Early

"School days, school days: good ol' golden rule days!" Here they come again, and if you're a wise parent, you'll get ready ahead of time, declares a release to The Herald from the Texas State Department of Health.

There is lots to do—buy clothes,

fit shoes—and if your child is entering the first grade, chances are you need a birth certificate copy.

School districts in Texas require that entering students be six years old before September 1. Otherwise they must wait until the following year.

The best means of proving your child's age and birth date is to have a certified copy of his birth certificate.

In many areas of Texas, copies are available from local registrars of vital statistics in health departments or county courthouses.

You may also obtain a birth certificate copy from the Division of Vital Statistics of the Texas State Department of Health in Austin.

To do so you must send \$1 requesting a copy. Be sure to include the child's name, date and place of birth and the parent's name.

It is important that parents take care of this chore as early as possible. During August and September the division of vital statistics is swamped with literally thousands of requests each week for birth certificate copies.

If you want to be sure your child has his birth certificate when school starts, request it now.

Rough estimates place the number of upcoming first graders at about 250,000. That makes for a lot of birth certificate copies.

In addition to birth certificates it would be wise to check with your school district regarding any vaccinations that may be required.

It would be a good idea—if you have not already done so—to get your child started on his series of three Salk polio shots before school starts.

Also a fourth shot or "booster" is generally recommended for added protection a minimum of one year after the initial series.

Another smart idea that will pay off is adjusting your child's schedule to approximate that of school time including bedtime, meals and especially waking time.

**REAL COOL MAN!**—Eric Van Hamersveld demonstrates his headgear in Fort Worth for hot summer days. The fan is powered by two small flashlight batteries concealed in the pith helmet.

## COUNTY FAIR

(concluded from page one)

Deadline for entering exhibits, other than livestock, has been set for August 12.

Departments for this year's fair and superintendents include the following:

Beef Cattle—Merrick Harvey, superintendent, and Bert Foster, assistant. The divisions are breeding females, breeding bulls and fat steers.

Swine—M. T. Spraberry, superintendent, and Carlton Sasser, assistant. Breeding swine in eight classes and fat barrows.

Sheep—Boots Spraberry, superintendent, and N. J. Mayfield and Gene Sosebe, assistants. Breeding sheep, six classes each in fine wool, Southdown, Suffolk and Hampshire and five classes in fat wethers.

Dairy Cattle—Roy Moritz, superintendent. Three classes each of breeding females and bulls.

Crop Exhibits—Bill DeBusk, su-

perintendent, and Woodrow Bagley and Tony Jones, assistants. The divisions are: Cotton; Best 20 open; bolls and best single stalk; grain sorghum heads (six heads); white milo, red milo, felterita, hegari, bonita and kaffir; silage (each exhibit to be one No. 2 tub); Hegari, red top sorghum, atlas, any other; banded forage (bundles to be three to five inches in diameter at center bind); Sudan, hegari, felterita, red top sorghum, kaffir and sorghum alman; hay (baled): Alfalfa, sudan, sorghum, any kind; watermelons: Black diamond, Charles-ton gray, tendersweet, others; cantaloupes: Rio gold, Smith's perfect, any others.

Women's Division—Mrs. J. A. Walker, superintendent and Mrs. Herman Steel and Mrs. Walter Love, assistants. Clothing, dresses, children's clothes, hobbies, ceramics, antiques, crochet, table covers, textile painting, copper, quilts, knitting, bedspreads, pillow cases, towels, accessories, hand-made novelties, pillows, pictures, needlepoint work and rugs.

Foods—Cakes, frozen vegetables, fruits, food preparation, pickles, canned vegetables and fruits.

Reporters' scrap-books. Educational exhibits.

Junior and Teen-Age Girls—Breads, cakes and cookies, food preservation, clothing and hobbies.

In the beef cattle department all breeding animals must be registered, and small entry fees are charged.

All Future Farmers of America boys planning to enter livestock should contact their ag teachers and 4-H Club members can get entry cards from the county agent.

The horse show entry list has not been released.

The fair will open with a parade in which all towns and communities of the county are being invited to participate, and riding clubs, sheriff posses and bands of other West Texas towns will be welcomed.

Complete information on the fair, including premiums, trophies, rules and regulations, and complete schedule of exhibits, will be printed in a catalog which will be available soon.

The critic who expects all of creation to fit his views just happened to be born too late.

While some men battle their way to the top others battle their way to the bottom.

## Deep Down Carpet Cleaning RENT

Hotel Type Blue Lustre Machine

There is no substitute for the Blue Lustre rotary type action brush machine that cleans deep down. This one easy to use machine is all you need. When you clean with Blue Lustre there is no need for a wet vacuum to take up soapy residue. Modern Blue Lustre contains no soap. Carpet nap is left alone and left. You are a professional with the easy to use Blue Lustre machine.

## George W. Clark, Retired Farmer of Area, Succumbs

George Washington Clark, 88-year-old retired farmer of the Hamlin section, died Saturday morning at Hamlin Memorial Hospital after a serious illness of five weeks. He had been in the hospital about a month, suffering with cancer.

Born December 24, 1870, at Monticello, Kentucky, he was the son of Isaac and Lucinda Clark. He moved as a young man to Texas, and married Jennie Maberry on August 11, 1896, at Roby. The couple farmed west of Hamlin for many years. He moved to Hamlin four years ago. He was a member of the North Central Avenue Baptist Church.

Funeral services were conducted Sunday afternoon at 4:00 o'clock at the North Central Avenue Baptist Church. Rev. T. M. Harrell, the pastor, officiated.

Burial was in the McCauley Cemetery under the direction of Hamlin Funeral Home. Pallbearers were Charlie Abbott, Robert Rhoton, J. B. Jayroe, Clarence Butler, Eddie B. Hopper and Bob Christian.

Surviving the octogenarian are two sons, L. H. Clark of Hamlin and G. C. Clark of Fort Worth; one brother, G. C. Clark of Natalia; three grandchildren and five great-grandchildren.

All kinds of pencils at Herald.

**NEW PASTOR** of the Calvary Baptist Church, Rev. Royce Campbell (above), will be the preacher in a series of revival services beginning Sunday at the Calvary Baptist Church, near the McCauley Y in South Hamlin.

## Nazarene Vacation Bible School to End

Mrs. J. B. Martin, supervisor of the vacation Bible school underway at the Church of the Nazarene, announces that after the school closes, which will be on Saturday, August 1, there will be a program given by the students.

The program will be presented Sunday morning, August 2 during the Sunday School hour. After the morning service the crafts will be on display.

## Retail Sales for West Texas Show Gains Over 1958

Retail sales in West Texas, including those of Hamlin, last year increased over 1957 at a rate of 19.7 per cent greater than the rest of the state, according to a story in the July issue of West Texas Today, official publication of the West Texas Chamber of Commerce.

Based on copyrighted figures reported by Sales Management, Inc., the article also reveals that the 132-county region of WTCC recorded an increase for the year of \$245,616,000 in effective buying income.

The county-by-county listing of retail sales for 1958, 1957 and 1956 in the magazine article indicates that increases in 1958 over 1957 were realized by all eight counties in the over \$100,000,000 category, in three of four of the \$50,000,000 to \$100,000,000 group, in seven of nine in the \$25,000,000 to \$50,000,000 group, in 25 of 42 in the \$10,000,000 to \$25,000,000 category, in 11 of 33 in the \$5,000,000 to \$10,000,000 group, in nine of 29 in the \$2,500,000 to \$5,000,000 group, and in two of seven in the less than \$1,000,000 category.

There are some operators in life who believe in the principle that they never should let their credit go unused.

## School Budget to Be Reviewed August 10

Financial budget for the Hamlin Schools for the 1959-60 school session has been prepared by the board of education of the Hamlin Independent School District. It is announced by Superintendent of Schools C. F. Cook. It is a slight increase over last year.

A special session of the school board will be held Monday evening, August 10, at 8:30 p. m. at the high school building when the budget will be reviewed for any taxpayer wishing to examine the budget.

## How to liven up potato salad

Just mix it with Miracle Sandwich Spread! Kraft's makes this tasty spread by adding special relishes to a creamy, zesty dressing. Great on head lettuce, too. Try it!

## Three-County Home Demonstration Club Camp Threatens by Few Going

The three-county camp for Home Demonstration Club women of Haskell, Jones and Fisher Counties, was held at Lueders last Thursday and Friday, July 23 and 24.

Only 54 women were registered and ate supper, with 32 spending the night. This is the smallest number ever to attend, and unless the attendance is increased the camp cannot be secured in the future, according to N. J. Williams, who has charge of the camp grounds. In order to have the meeting another year at least 60 must eat supper and as many as 50 spend the night.

Two plans were presented, these to be carried back to each county by the agent, and after the September council sessions some decision will be made and announced.

Registration this year was done by Jones County women. Good Neighbor Club made the badges, and Lueders registered the guests. Alice Kemp, agent from Fisher County, led the recreation, consisting of songs and games. A

copy of all games played and a song sheet were given to each attendant.

Haskell had charge of the vesper, presenting an impressive program.

Mrs. Harry Holt of the Hobby Shop in Abilene brought a wide selection of crafts to choose from. Especially attractive were the Christmas wreaths made by some of the ladies from kits purchased from Mrs. Holt.

Two swimming periods were enjoyed by a large number of the women.

The program for Thursday night was given by 24 4-H Club girls from Fisher, two girls from Haskell and one boy from Jones County.

If there is a camp another year the following officers were named to function: Mrs. Lee Walters of Haskell County, camp chairman; Mrs. Elmer Joiner of Jones County, vice chairman; Mrs. Carl Bailey of Haskell County, secretary-treasurer.

## Fruits and Vegetables Head Plentiful Foods List for Next Month

What's plentiful in Texas food stores this August?

Fresh fruits and summer vegetables dominate the list of more than a dozen plentiful foods, reports the Agricultural Marketing Service from Dallas, after making a survey of stocks immediately available to Texas and other Southwest homesteaders.

Pears and plums rate the feature spot because shipments will be rolling from the largest pear crop since 1949 and from a plum crop about 70 per cent larger than last year.

Supplies of peaches, lemons and limes are expected to run especially heavy, too.

Only meat to make the U. S. Department of Agriculture's August plentiful foods is turkey. About 65,000,000 pounds are moving from national cold storage stocks.

Other items in good supply include eggs, peanut butter, onions, vegetable fats and oils.

## Methodist Women In Monday Gathering

Members of the Copeland Circle of the Woman's Society of Christian Service of the First Methodist Church met Monday morning with six members present, including a new member, Mrs. Nunley.

Mrs. V. V. Anderson opened the session with prayer, and she read the minutes. Mrs. Copeland, the chairman, presided over a business session. Mrs. W. B. Cotten brought the devotional on one-sentence sermons. She read the fourteenth Psalm. Ella Temple dismissed meeting with prayer.

The hostess served attendants drinks and cookies. Next meeting of the group will be in August.

## THESE WOMEN!

But every time you stay up to watch the Late, Late Show, you're late, late to the office next day!

## Home Sewing Getting Easier with New Patterns and Techniques of Assembly

Home sewing is getting easier all the time, points out Dorothy Roe, AP Newsfeatures writer, in a release to The Herald.

Nowadays a smart girl can sew her entire wardrobe with the aid of modern automatic sewing machines, improved patterns and the many opportunities for professional sewing lessons—in school, at local sewing centers, and even at department stores.

Pattern designers always are thinking up new short-cuts, and one of the latest is the idea of making three different dresses from one pattern, with different sleeve, neck and waistline treatments. This is a technique suggested in one of the new "easy" patterns, designed to be whipped up in next to no time.

If back-to-school sewing is on the agenda, here's a good chance to kill three birds with one stone: Try one dress in a light weight wool with plunging neck, bracelet length sleeves and a wide satin

cummerbund for informal parties. Make another in a gay fall print, with short sleeves and scoop neckline. Do the third in a dark cotton with a white neckline tie for early fall wear.

You can set up an assembly line for this kind of sewing. First make all necessary pattern alterations, using the inch-rulers printed right on the pattern pieces. Cut out long-sleeved version of bodice; then cut pattern pieces along marked lines for short-sleeved versions.

Baste one dress together for a try-on session, then make identical adjustments in the other two dresses. You'll find you can sew them up in a little time. Be sure to have three sets of thread and full bobbins in the colors you will need. With the new sewing machines bobbin changing is the work of a second, since bobbins simply drop into place in front of the needle—no need to tilt up the head of the machine. Threading is a cinch, too, with the new thread charts built into the slant-needle machines.

Each of these dresses requires about five yards of 35-inch fabric and the pattern. If you select easy-care cottons, be sure that all items—seam bindings, trimmings and such—are also special finish types so the entire dress can be drip-dried.

Attention to such small details marks the difference between a "home-made" and a professional custom look. And it's surprising how many girls nowadays are turning out complete wardrobes that look like a million, and cost only pin-money to make.

## Sorority Groups Meet In E. D. Perrin Home

Members of the two Beta Sigma Phi Sorority chapters of Hamlin, Beta Theta Xi Gamma Phi, met recently in the home of Dr. and Mrs. E. D. Perrin for a summer get-together.

Attendees enjoyed home-made ice cream and cake for refreshments.

## Hamlin Garden Club Group Discusses New Study for Yearbook

Members of the Hamlin Garden Club met Wednesday, July 22, in the home of the president, Mrs. Joe League, 102 Northwest Avenue A. This was a called meeting to attend to new business and to accept two new members, Mrs. O. L. Henry of 113 Northwest Avenue J, and Mrs. Louis Boyd of 333 Southwest Fifth Street.

Mrs. B. B. Colwell was elected to the office of club secretary and Mrs. C. R. Lovell as club reporter. The resignation of Mrs. Clyde Grace was accepted with regrets.

Chairman of the yearbook committee, Mrs. LaFoy Patterson, spoke briefly on the programs for the coming year and requested each member to give her choice of programs.

Regular club activities will begin officially September 11 with a luncheon in Abilene.

## Hamlin Girls Go to Camp Fire Girls Camp

On July 19 nine girls from the Zune Camp Fire Girls group of Hamlin went to Camp Letell near St. Jo, Texas. They were Lenora Brown, Ginger Kidd, Karen Knabel, Ann Johnson, Joyce Smith, Anna Adams, Judy Fitzgerald, Kay McCoy and Sue Johnson.

Everyone enjoyed the activities and some were horseback riding, swimming, crafts, cooking out, sleeping out and hiking, reports one of the attendants.

On the last day the girls participated in a water show, with their parents as guests. Skills shown in the water show were races, diving and water ballet.

Lynn Brannon had attended a previous two-week session of the camp.

## ATTEND HOMECOMING.

Mr. and Mrs. Amos J. Pemberton attended a homecoming of members and former members of the First Baptist Church at Salesville, Texas, Saturday night and Sunday. Sunday services were featured by a big dinner on the grounds, they reported.

## Letting Little Children Play in Water Helps to Keep Harmony in Home

Little children who play in water, observe Dorothy T. Whipple, M. D., of the AP Newsfeatures, in a release to The Herald. She continues: Mothers of little children usually object to this kind of play for the very practical reason that it is messy and requires a lot of cleaning up. Also there is always the question of the child becoming chilled.

These are valid objections and yet water play has a lot of real value for the pre-school child.

The hoisterous, aggressive child often quiets down when he is allowed free rein with a tub of water. Also the timid youngster seems often to gain a new freedom when he is splashing sudsy water about.

Every mother knows how much children enjoy their baths. It is certainly not the getting clean that entices them—it is some quality in the water itself as it drips from a sponge, pours from one vessel to another, foams up with soap, trickles down the arms that fascinates children.

With some planning it is not impossible to give youngsters the joy of playing in water. Try it and you may find you have a happier, more cooperative youngster on your hands.

Tricia was three. One warm summer day she was especially difficult. She pulled books out of the book-case, dumped an ash-tray carefully on the pages of a book, turned a few more pages, and smeared more ashes on the stiff pages. She clamped the book down on her finger and began to cry.

The cries brought mother, who wasn't exactly pleased by the mess she saw. Then followed scoldings, tantrums and fuss. Finally mother pulled herself together and said: "Tricia, how would you like to blow some bubbles?"

The little girl jumped up, her face beaming: "Bubbles, bubbles, bubbles!" she sang.

Mother started toward the kitchen. Tricia jumping along behind. They got down a pitcher, filled it with warm water, added

some soap flakes. Tricia took her little cup and the straws mother handed her. Together they went to the north window, Tricia expectantly slipped into a chair at her small table, mother pouring the sudsy water into her cup. Tricia put her nose down into the cup, beamed up at her mother, then she swished her hands around in the cup, spilling water on the table. She smeared the water around the table top, humming to herself as she did it.

Finally she blew through the straw and the soapy water foamed up. She grabbed handfuls of it, squeezed them between her fingers and blew them into the air—a happy smile played over her face and the same softly, then louder, and then softly again: "Sudsy bubbles, bubbles, I make bubbles." There wasn't any doubt about her joy with this play.

Of course, she got wet—but it was warm and she didn't have anything on but a sun-suit and shoes. The shoes got wet, too, and mother came along and took them off. Now Tricia patted some bubbles on her little pink feet and howled with glee as she wiggled her toes.

Mother looks at her radiant little daughter and thought to herself: Why didn't I ever think of this before? It's a lot less mess than those ash-trays!

## Rickrack Helps Add Color to Many Articles

The secret of effective trimming on clothes and household items lies in sparing use. Many eye-catching items for the home can be trimmed easily with bias tape and colorful rickrack.

Such trim comes in many colors, is color-fast, and is easily applied to point up the versatility and long lasting impact of its use. What's more, rickrack lends itself to all kinds of imaginative decorative treatment.

Religious activities in Boy Scout camps are carried out under religious leaders of all faiths.

## Use Tissue to Help Keep Hair Net Placed

Despite the many brands of hair nets available today, many women awaken in the morning with both hair and hair nets in wild disorder.

This situation is easy to remedy, however. Roll off a proper length of bath-room tissue, fold lengthwise, place it comfortably around the head, and fasten it securely with two bobby pins.

Then put on the hair net and insert bobby pins through both the tissue and the net. Be certain to put bobby pins where they will control such stubborn areas as the center of the forehead, temples, back of the ears and nape of the neck.

## Small Baby Deserves Extra Mother Care

If your baby is one to three months old, here are some important tips worth knowing.

Be sure that the water you bathe him in is not too hot, and that the faucets are out of baby's reach. He shouldn't be left alone in the tub, even when you reach for a towel.

Never leave your baby alone where he might fall. Babies roll easily. Rattles should be sturdy and unbreakable. Your bundle of joy should not be allowed to play with or be within reach of small objects that he might be tempted to put into his mouth.

## Let Youngsters Have Own Wash Cloths

Your youngster will enjoy using his very own wash cloth, sized to his age. Such wash cloths are easy to make by cutting toweling into squares in a size that the child is able to handle.

Use different colors for each child, so that he can recognize his own. You will find that with these the child is more willing to wash his face and hands.

The boy who learns to play a game fairly and squarely will seldom develop into a crooked business man.

HAMLIN, TEXAS

STATE CAPITAL

Highlights

AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin. — Tired reading about the Texas Legislature?

Well, my friend, you're not alone. Seems like most everybody feels that way—including many members of the House and Senate.

Okay, then, for a little diversion let's look north and see what has been going on in our neighboring states.

Oklahoma's legislators also faced a financial crisis. How did they meet it? First they cut some needless expenses, eliminating waste and duplication. Then they appropriated for 18 months instead of 24. But they did not increase any existing taxes. Fortunately for them, financially at least, Oklahoma voted in liquor and they now have some brand new tax income—or will very soon.

Oklahoma it must be remembered, has a state income tax and an across-the-board two per cent sales tax—two things Texas does not have.

Putting the state in a better light, collection-wise, Oklahoma legislators swiped Uncle Sam's idea and added a state withholding tax. This is to assure more collections from their income tax.

Six months of continuous session has just been ended in the Sooner State. Although their financial problems are solved for the next 18 months, after that a sizeable hike in taxes is expected.

Texas legislators have met almost continuously since January 13. They may even have to go into a fourth special session. But if they do, they will earn the wrath of the old folks whose pensions stop in mid-August unless a sizeable tax bill is enacted. There is no doubt about it in Texas, the people are disgusted. And the legislators are disturbed.

There is much talk that many of them will not be reelected. Undoubtedly there are some who don't ever want to return to the legislative halls.

Many of the senators and representatives have tried to formulate a tax program that would care for the needs of the state. Their efforts have been stymied.

During the past six months there has been talk of a unicameral Legislature, like Nebraska's. Also there has been talk of a special election to let the public decide on taxes—especially sales taxes. Some officials feel that

the public, if it had its say today, would vote for a sales tax—and thus take the monkey off the backs of legislators. But so far no one has had the courage to introduce such a measure.

Soundings by the press indicate that a sales tax might very well be acceptable to the people—that the people fully realize the dilemma—that they at least would go along with a reasonable sales tax, although they might be firmly opposed to an income tax.

Maybe a special election on the subject of a sales tax is the answer. At least the public would have a say in the matter, and our senators and representatives would not have to face the criticism they now fear.

Wish somebody had thought of that earlier, don't you? An election could have been held on the subject at much less expense than that incurred in financing three additional special sessions, all of which actually centered around that very topic.

**New Building.**—While the Senate and House are busy trying to find a way to finance the state's future operations, governmental buildings still are being erected around the capitol. In fact, they are beginning to dwarf the major edifice.

Occupancy of the first of these buildings to be completed has just been made by the Texas Employment Commission. Its 600 employees now are housed in the \$2,400,000 structure.

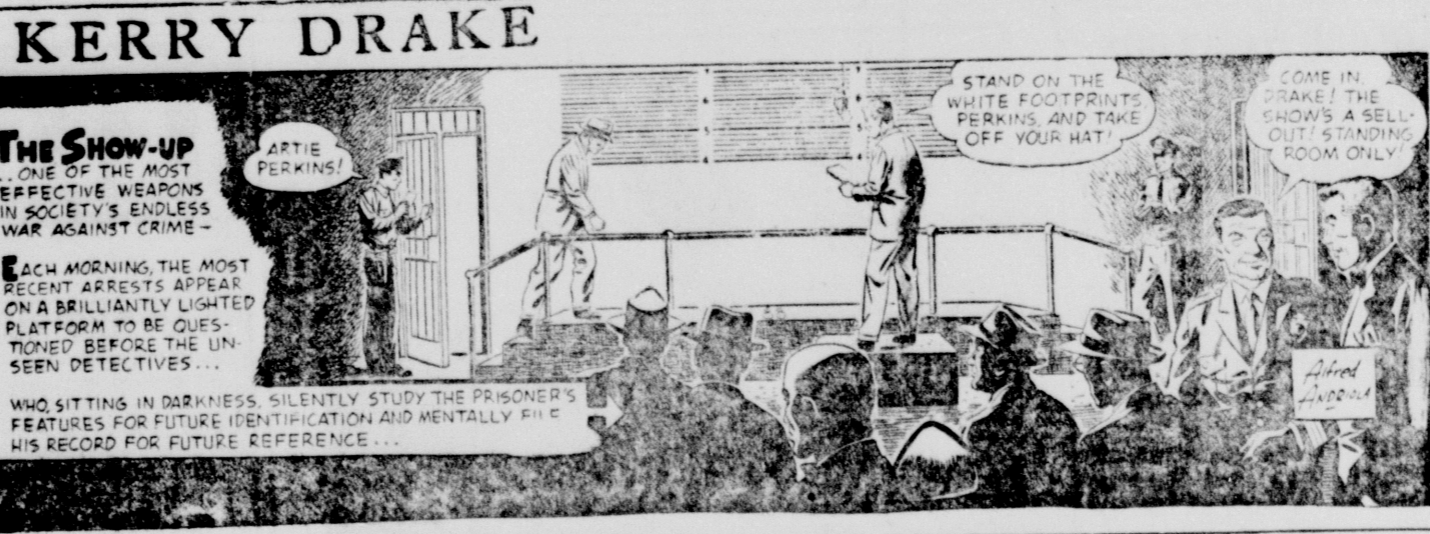

A total of 11,000 pieces of furniture were moved out of 11 downtown Austin locations into the new six-story building.

TEC began some 24 years ago with a staff of 25 employees in the state headquarters and 50 local offices. Now employed are 2,300 persons, with 93 local offices throughout the state.

**Governor Signs Bills.**—A bill by State Senator Bill Fly extending the time for removal of the offices of the State Board of Insurance from the International Life Building in Austin has been signed by Governor Price Daniel.

The commission rents some 10 floors of the building. However, the rent is paid by the various insurance companies in Texas.

Earlier Senator Fly secured passage of a bill calling for the

removal of the insurance commission from that building and the construction of its own office headquarters. Work has not yet begun on the new building.

Other bills signed by Governor Daniel include one by Senator Hubert Hudson, authorizing certain water districts to waive immunity from liability for negligence of its agents; a bill by Senator Charles Herring relating to monies appropriated to the State Board of Barber Examiners; and two bills dealing with hunting and fishing. One, by Representative Sam Parsons, would authorize the Game and Fish Commission to allow fishing and hunting of migratory waterfowl on lakes and rivers located upon a common boundary with other states. The other, by Representative Zeke Zbranc, related to the catching of catfish from the Trinity River.

**Long Invite Picketed.**—A second attempt to get legislative approval of an invitation to Governor Earl Long of Louisiana to address the Texas Legislature has failed. The latest effort, by Representative Bill Jones of Dallas, drew little support.

Jones said that his invitation was a matter of "common courtesy" to the governor, who had expressed a willingness to address the Texas Legislature when he came through the state recently.

**Trinity Project Presented.**—An application from the Trinity River Authority to "appropriate" 840,700 acre feet of water per year from the Trinity River and to store 1,579,000 acre feet, or nearly a two-year supply, has been received by the State Board of Water Engineers.

Hearing has been set for Monday, August 31.

The Trinity River Authority proposes to build a dam six miles southwest of Livingston in Polk County.

Its request calls for 95,200 acre feet of storage devoted to municipal use; 672,600 acre feet for industrial use; and 72,900 acre feet for irrigation purposes.

**Parsonage Ready for North Central Baptists**

Workmen have been busy for several weeks on remodeling the house moved three months ago to property east of the North Central Avenue Baptist Church, making it into a parsonage for the church's pastor.

The pastor, Rev. T. M. Harrell, and family have been living in the house several weeks while the alterations are underway. The house faces Northeast Avenue A.

**WEATHERFORD VISITOR.**

Mrs. Dale White and daughter of Weatherford visited Mr. and Mrs. A. C. Tidwell Sunday. She is the former Laura Courtney.

**Area Veterans Share In Insurance Payment**

Number of Hamlin area veterans will share in a special dividend of \$4,000,000 that will be paid this year to 85,000 national service life insurance policy holders who carried the \$5 total disability income provision, the Veterans Administration said this week in a release to The Herald.

This provision provides the insured veteran a monthly income of \$5 per month for each \$1,000 of insurance in force in the event he becomes totally disabled, and costs him an additional premium.

**Working Sat Tuesday At Afton Cemetery**

An all-day cemetery working at Afton Cemetery, six miles west of Hamlin is set for Tuesday, August 4, according to Mrs. W. R. Townsend, secretary of the cemetery group.

Workers are asked to bring their own tools and be prepared to help work all the graves in the cemetery. Workers also will bring their lunches if they plan to stay during the lunch hour.

**SELLERS BACK HOME.**

Mr. and Mrs. Charlie Sellers returned Thursday from a week's stay in Corpus Christi and Galveston, where Mr. Sellers took treatments for asthma. He is little improved.

Rubber bands at The Herald.

**VISITS IN FORT WORTH.**

Rose Lovell returned for a two-week visit with relatives, Mr. and Mrs. Carl Mounce, at Fort Worth. Gaston Mounce returned with her for a several-week visit.

## Imagine Being Happy During CHANGE-OF-LIFE!

Thousands of women now go "smiling through" those trying years—without awful suffering from "hot flashes"! Countless women have found you no longer have to feel sickly, "old" before your time. Today, many can enjoy change-of-life—without terrible suffering! Pinkham's Tablets have been developed especially to relieve those functionally-caused "female miseries." Their unique formula includes blood-building iron! With Pinkham's Tablets, you can escape much of the "hot flashes," irritability. You're ready to start living again!

**NO PAINFUL SHOTS!**

A out of 10 tested by doctors got thrilling relief—without costly shots! Why not you? Get Lydia E. Pinkham's Tablets at drug stores. See if you don't find new happiness during change-of-life!

**IF YOU PREFER A LIQUID,** druggists also have Lydia E. Pinkham's Vegetable Compound.

## New Water Safety Act Designed to Make Boating Safer, Says TSA Official

Many Hamlin area boating enthusiasts are reminded by J. O. Musick, general manager of the Texas Safety Association, that the intent of Texas' new water safety act is purely and simply the promotion of boating safety.

This purpose is partially accomplished by the requirements of proper and uniform safety regulations.

What might be called a second phase deal with accidents, enforcement and penalties of the new act, to be administered by the Texas Highway Department when it goes into effect August 11.

Under the water safety act it will be unlawful for any person to operate any class of motorboat, ski or similar contrivance in a reckless or negligent manner that endangers the life, limb or property of any person. This is just about as specific as a law can get and still cover all situations.

In essence, the act requires the operator of any boat involved in an accident causing death, injury or property damage to stop, render assistance, give his name, address and identification in writing to any person injured, or to the owner of damaged property.

In case where an accident re-

sults in death, injury or property damage in excess of \$100, the operator of any motorboat must file a full description of the accident with the Texas Highway Department. Such report is not admissible in court as evidence.

Any person who operates any vessel, or manipulates any water skis, aquaplane or similar device while intoxicated will be guilty of a misdemeanor.

Upon conviction, the person may be fined not less than \$50 or more than \$500 and/or be imprisoned for not more than six months.

A person who violates any section of the water safety act is guilty of a misdemeanor. Upon conviction, such person may (where another penalty is not provided) be punished by a fine of not less than \$10 or more than \$50.

Just as the water safety act must be in conformity with the federal boating act of 1958, so, too, local regulations must conform to this act.

However, there is nothing to prevent local adoption of laws relating to operation (including zoning), equipment and other safety measures, if the provisions are consistent with the water safety act.

Also municipalities may adopt ordinances limiting the horsepower of motorboats operating on lakes within their jurisdiction.

All of Texas' duly authorized peace officers are given authority to enforce the provisions of the act. Furthermore, a violator may be taken into custody if he refuses to sign a promise (ticket) to appear in court within 30 days. Courts of the county in which the violation occurred have jurisdiction.

The Herald has carbon paper.

## Korean Veterans Urged to File Plan For Schooling Now

"Apply now. Don't get caught in the rush!" This is the advice that the Veterans Administration gives this week to all Korea veterans planning to start school in the fall under the Korean GI bill.

By applying now, a veteran can beat the rush and can eliminate any chance of a delay at the last minute, VA said. To help veterans get started, VA issued this check list:

1. Since the law allows a veteran to change his GI course only once, he should give plenty of thought in advance to his goal.
2. If he is undecided about what to train for, he may ask for VA vocational counseling.
3. He should be sure that his course has been GI-approved by the state in which the school is located.
4. He should make all arrangements for gaining admission to his school before he even files his application with VA.
5. The GI training application should be completely filled out and signed. The veteran should send it, along with a photostat or certified copy of his separation paper, to the VA regional office.
6. A veteran with dependents should have the necessary proof of dependency.
7. A veteran should take along enough money of his own to tide him over the first two months of training. It takes about that long ordinarily for his first monthly GI check to reach him.

### UP TO OLD TRICKS.

"I think that driver in the car ahead of us is an old school teacher of mine."

"What makes you think so?"

"Well, she seems mighty stubborn about letting me pass."

**OLD MEXICAN CUSTOM** — Teresa Colleher, a national twirling champion, of Mission is demonstrating her version of the old Mexican custom of Pinata. Since so long ago that nobody remembers, Mexican children have celebrated their birthdays by suspending a gaily decorated Pinata fashioned in many designs—in this case a donkey—from a clothes line. Blindfolded children take turns trying to break the Pinata open with a stick, scattering its candy filled interior in all directions. In this instance, Teresa looks better without the blindfold.

## Propagation of Fish in Farm Ponds May Be Hurt by Use of Weed Killers

Hamlin area farmers and ranchers are more and more promoting lakes and ponds for propagation of fish for food and pleasure.

Research in fish farming, the process whereby agricultural crops and fish are grown in rotation, is being started by the U. S. Fish and Wildlife Service, says Bill Cooper, extension wildlife specialist. The purpose of this study is to provide practical ways by which fish farming can be conducted profitably in conjunction with agricultural crop growing.

Numerous problems on stocking, disease control, predation, competition and reservoir management must be solved before fish farming can be economically feasible. This research program will be followed closely and results will be reported when available, Cooper added.

Cooper also said that the pelleted form of 2-4-D shows some promise in controlling aquatic vegetation, particularly the emergent vegetation in shallow water around the edges of ponds and lakes. More research is needed, he said, before definite recommendations can be made. At the present time the sale and use of pelleted 2-4-D is governed by regulations pertaining to hormone type herbicides. The material is not sold or used in those counties specified in the herbicide regulation.

## Other Benefits Do Not Affect Social Security Payments

Disabled workers who have not applied for social security disability benefits because they are receiving disability payments from another federal agency, or under a state workmen's compensation program, should get in touch with their local social security office without delay.

According to R. R. Tuley Jr., manager of the Abilene social security district office, many such workers can now get social security disability benefits. Moreover, benefits can go back as far as August, 1958, if an application is filed before September 1, 1959.

Under the law in effect prior to August, 1958, a worker's social security disability payment was reduced by the amount of any other disability benefit he received under a state workmen's compensation program or from another federal agency. In a number of cases this meant that no social security disability payment could be made. As a result, many workers who would not have benefitted by the "disability freeze" did not file a claim. These workers should check with their local social security office not later than August 31, 1959, Tuley emphasized this week.

A representative of the Abilene office of the Social Security Administration will again be in Hamlin on the morning of August 7 at the city fire station. He will be glad to discuss your social security problems with you.

And last he cautions against trying to control pond weeds or fertilizing your pond now. These practices are effective in spring or early summer. It is too late in the summer now for effective work of this type. Either practice during late summer will likely result in oxygen depletion and loss of fish.

If oxygen depletion hits your pond, Cooper suggests using an outboard motor, either on a boat or fixed to a stationary object, to aerate the water. Circulating water by pumping will get oxygen into it, and the more splash the better, he says.

## Show-Off in Man Responsible for Many of Accidents

Men are show-offs! And, besides, most guys are would-be supermen.

These observations come from a member of the so-called stronger sex, Thomas Fansler.

In support of his opinions, Fansler, director of the home division of the National Safety Council, cites such facts as these:

1. Seven out of 10 persons who die in accidents are males.
2. Males are killed more often than females in accidents involving motor vehicles, fires, drownings, firearms, railroads, poison gases and poisons.

"In a recent year," Fansler pointed out, "men were killed three times more often in motor vehicle accidents than women."

Thirty years ago, the average white female lived about three years longer than the average white male. Today she can expect to outlive her man by more than six years.

A big reason for this, according to Fansler: Women are more careful working and playing than men.

"If there's a hazardous job to be done around the house," Fansler explained, "the man does it. Besides, men's jobs involve more hazardous tools."

"And men so often are show-offs!" Solution to the problem? The little woman, "Women," said Fansler, "can do a lot to keep their men alive. They can encourage them to play it safe when doing odd jobs around the house."

"They can persuade hubby he isn't expendable—that he doesn't have to keep proving himself."

"No woman wants to be a widow—even of a would-be superman," he said.

The trouble with too many people is that the only thought they have is that they have to say something.

We would all agree that money is one of the commodities about which we cannot say: "A little of that goes a long way."

The whiz who is always on the verge of making a million dollars never realizes he has to make a thousand dollars first.

## Cotton Insects Still Plague Crop Over Almost All of State

In the eastern half of the Lower Valley a boll weevil migration has occurred, while in the western half harvesting has increased. It is pointed out in the tenth weekly cotton insect condition report of the Texas Agricultural Extension Service in cooperation with the plant pest control division of the U. S. Department of Agriculture. The report continues:

Bollworm activity has increased in most areas with heavy egg deposition still being reported. Boll weevil infestations were found to be more general in many areas with isolated heavy populations reported. Cabbage loopers continued to cause damage in the Coastal regions and heavy populations were reported in the Pecos area. Pink bollworm populations continued to be light.

Some harvesting was reported underway in the Coastal Bend. Other cotton pests reported in the state were cotton leafworms, spider mites, aphids, lygus and grasshoppers.

Excerpts from the report on Northwest Texas, of which the Hamlin area is a part, included: Thrips infestations were said to be light in Wilbarger, Cottle and Donley Counties. Light infestations of fleahoppers were observed in Cottle County; medium infestations in Wichita and Donley Counties; and light to heavy infestations in Wilbarger County. Light to medium infestations of bollworms and boll weevils were reported from Wilbarger, Cottle, Donley and Wichita Counties. Medium infestations of aphids were observed in Cottle and Donley Counties.

### VISIT FROM DALLAS.

Mr. and Mrs. Harold Walker and children, Vickie and Hal Jr., of Dallas, Mrs. Margaret Howard, Mary Anne and Jackie, of Denver, Colorado, are guests of their parents, Mr. and Mrs. Charlie Sellers, and other relatives.

**MISS WOOL OF TEXAS**—Carrell Currie (left) of Dallas was named Miss Wool of Texas for 1960 in San Angelo. Crowning her is Miriam LaCour of Raywood, Miss Wool of 1959. Miss Currie, 19, will be a sophomore at Southern Methodist University at Dallas this fall.

## County Agent Urges Caution in Handling Cotton Insect Poison

Kirby Clayton, Jones County farm agent, cautions extreme care in handling insecticides. This is particularly true with some of the highly toxic organic phosphorus compounds used to control cotton insect pests. Unless proper precautions are taken the operator and others are likely to suffer ill effects.

Clayton points out that proper precautions include proper clothing — coveralls, goggles, rubber gloves and a respirator. Even then, every effort should be made to prevent spilling poisons on the clothing or person. If this should happen, it should be washed off immediately. A bath and clean clothing should follow the completion of the poisoning job. This

applies to concentrated, wettable powder or dust.

Empty poison bags or containers can be dangerous to unprotected persons or animals and should be either buried or burned immediately after emptying.

Clayton also suggests that all regular handlers of these highly toxic compounds have a medical check-up every 10 days while working with phosphorus insecticides.

### VISIT FROM HOUSTON.

Mr. and Mrs. P. E. Hetzel and daughter, Taras, of Houston are visiting their parents, Mr. and Mrs. John R. Brown Sr., and other relatives.

### VISITS AT MIDLAND.

Mrs. J. J. Wilemon of Neida is visiting her daughter, Mrs. Hershel Hubbard, and family, and son, Guy Wilemon, and family at Midland.

## Hamlin People Go To LaRoy Stubbs Funeral Saturday

Several relatives and friends of the Hamlin community went to Knox City last Saturday morning to attend the funeral of LaRoy Stubbs, 37-year-old native of Knox City, who died at his home there Thursday evening following an illness of several years.

Born March 11, 1922, he was a 1940 graduate of Knox City High School and a veteran of World War II.

He was married to the former Mildred Pittman of Rochester. He was in the shoe shop business in Hamlin for several years, operating just north of The Herald. The family moved back to Knox City from Hamlin in 1945.

Funeral services were conducted Saturday morning at the Knox City First Baptist Church, with burial in Knox City Cemetery.

Survivors include his wife; one son, Sammy of Knox City; his father, George Stubbs of Knox City; two brothers, Jack and Vern Stubbs, also of Knox City; three sisters, Mrs. Epp Wilson of Big Spring, Mrs. Jake Armstrong of Fieldton, and Mrs. Mozelle Kennedy of San Luis Obispo, California.

## Freight Carloadings For Santa Fe Decline

Freight carloadings for the Santa Fe Railway System for the week ending July 18, 1959, were 23,123 compared with 23,958 for the same week a year ago, reflecting a slight decline. Cars received from connections totaled 10,490 compared with 8,951 for the same week a year ago.

Total cars moved were 33,613 compared with 32,909 for the same week a year ago. Santa Fe handled a total of 34,293 cars in the preceding week this year.

Proper advertising will often sell a poor product; it will invariably sell a good one.

EVANGELIST for a series of revival services beginning Sunday, August 2, at the McCauley Baptist Church will be Rev. John Ferguson of Kress (above). Services, being held at 10:00 a. m. and 8:00 p. m., will continue through Sunday, August 9.

## Final Year of Loans For World War II Veterans Beginning

World War II veterans this week entered the final year in which application may be made for a GI home, farm or business loan. Hamlin area veterans are advised through a release to The Herald.

Congress has set July 25, 1960, as the cut-off date in the post-war program that has already seen nearly 5,000,000 World War II veterans take advantage of the GI bill loan provisions since June 22, 1944.

Under the GI loan program, qualified World War II veterans are offered the opportunity to obtain VA guaranteed or insured loans to (a) purchase, build or improve a home; (b) buy a farm or farm supplies; and (c) buy or expand a business venture.

### \* BACK FROM VACATION.

Mr. and Mrs. B. H. Dillard and Jean Dillard returned this week from a two-week vacation spent at Salt Lake City, Utah, and the Yellowstone National Park.

## Rotary Club Hears Reports by FHA Confab Attendants

Ann Richey, Hamlin Future Homemaker of America member of the Hamlin High School chapter, and one of her sponsors, Mrs. Joe Wayne Carter, presented highlights of their recent trip to the national convention of FHA at Chicago, Illinois, as the program last Wednesday noon of the Hamlin Rotary Club at the oil mill guest house.

Ann, who is corresponding secretary of the Texas FHA organization, was one of 10 state officers attending the convention, along with more than 200 other FHA girls from Texas.

Mrs. Carter remarked that HHS is proud to have Ann as a student and junior citizen.

Mrs. Mildred Richey, mother of Ann, also was a special guest at the luncheon.

Besides the three girls, other guests at the Wednesday meeting were J. F. West, James H. West, Tom Adams and Judge H. G. Andrews, all of Stamford; Dr. Byron Bryant and Dr. Lee Hemphill of Hardin-Simmons University at Abilene.

## Robb Preaching in Shallowater Revival

Rev. Edmund W. Robb, pastor of the First Methodist Church, is doing the preaching in a revival meeting that began Sunday evening at Shallowater.

Rev. E. L. Yeats of Rotan, former pastor of the local church, will fill the pulpit at both morning and evening services Sunday, August 2, Robb announces.

### BALLEWS HAVE GUESTS.

Mr. and Mrs. Kenneth Ballew of Lubbock, visited his parents Mr. and Mrs. S. C. Ballew, over the week-end. Mrs. Earl Ballew and children, Brenda, Sue and Roger, of Levelland also visited in the Ballew home.

## Sales of Bonds in County for Year Now Total \$241,642

A. C. Humphrey of Stamford, chairman of Jones County's savings bonds committee, reports that June bond sales in Texas were 114 per cent greater than May sales. Bond sales in Jones County totaled \$241,642 for the first half of 1959. This represents 49.6 per cent of the year's goal for the county.

Sales in Texas for the first half of 1959 were \$81,960,488 or 44.9 per cent of the year's goal of \$182,500,000.

"The fine sales increase shown in June points up the fact that thousands of Texans are interested in an investment where their principal and interest are fully guaranteed by the U. S. Treasury Department. I believe strongly in the bond slogan, 'Part of every American's savings belongs in savings bonds.'" Humphrey stated. "More Texans should take part in the savings bonds program, not only as a tangible expression of patriotism, but as a practical way of saving for future personal security." Chairman Humphrey concluded.

Total sales in Jones County for the year ranked the county fifth percentage-wise in attainment of the year's goal among the nine counties of Central West Texas District 16, the sales tabulations showed. The table of sales and percentages follows:

County—	Year's Sales	% of Goal
Callahan	\$ 72,109	33.7%
Eastland	258,390	47.4%
Fisher	45,224	50.8%
Haskell	158,997	49.5%
Jones	241,642	49.6%
Nolan	254,098	61.8%
Shackelford	118,826	50.3%
Stephens	166,300	36.8%
Taylor	793,517	56.1%
District 16	\$2,107,097	50.6%

## John Ferguson Leads Revival at McCauley

Rev. John Ferguson, pastor of the Kress Baptist Church, will do the preaching in a series of services beginning Sunday, August 2, at the McCauley Baptist Church. The services, to be conducted at 10:00 a. m. and 8:00 p. m., will continue through Sunday, August 9.

Rev. Ferguson is a native of this area, having been reared at Sylvester. He formerly was pastor of the Roby church.

Services for the revival campaign will be held in the newly completed church building, which has been under construction for several months this summer.

**FRITO FOUNDER DIES**—Charles E. Doolin, 56, founder and chairman of the board of the Frito Company, died in Dallas after suffering a heart attack.

## Requirements Set by Schools for Entry of Six-Year-Old Pupils

Requirements for entry of six-year-olds to school at Hamlin this session were released this week by Superintendent of Schools C. F. Cook.

A child must be six years of age on or before September 1 in order to attend public school. It is necessary that each child entering the Hamlin Schools in the first grade present a birth certificate.

"We do not require that children be immunized or vaccinated," Cook said, "but do suggest and recommend to each parent that your child be vaccinated for the following: Smallpox, diphtheria, whooping cough and typhoid. We feel that your child should have the above because sickness causes about 95 per cent of our absences. It is necessary that a child attend school regularly in order to progress properly."

Birth certificates for entrance into school may be obtained from the Division of Vital Statistics of the Texas State Department of Health in Austin, for a fee of \$1.

The problem of life consists mostly of subtracting what a man owns from what he owes.

Taking advantage of a raft of friends is the only thing that keeps some people afloat.

Socrates was a Greek philosopher who went around giving good advice. They poisoned him.

Sometimes one wonders if it isn't easier to count his friends than it is to count on them.

## Area Brotherhood Camp of Baptists Features Leaders

"Every Man in His Place" will be the theme for the District 17 Brotherhood encampment, to be held at the Lueders Baptist camp ground Monday, August 3. Numbers of Hamlin area men are expected to attend.

Principal speaker for the event will be Dr. James N. Morgan, pastor of the North Fort Worth Baptist Church. It is announced by George McDonald of Rotan, district president. The program will open at 3:00 p. m. and be concluded by 9:00 p. m. August 3, McDonald said. Wives of Brotherhood members are being invited. Program leaders in addition to Dr. Morgan will be Clifford Leddy of Abilene, immediate past president of the district Brotherhood; George L. Graham, executive assistant to the president of Hardin-Simmons University; Joe Liles, minister of music at the First Baptist Church in Abilene; Lowell Queen of Abilene, associational Brotherhood president; and A. C. Wimpee of Dallas, associate secretary for the state Brotherhood.

Activities will begin with group singing at 3:00 p. m. Leddy will follow with scripture, and McDonald will extend the welcome. A business meeting from 3:20 to 3:50 p. m. will be followed by Dr. Morgan's first sermon of the encampment. Wimpee will conduct an officers' clinic from 4:20 to 5:00 p. m.

Recreation and dinner will take up the two hours from 5:00 to 7:00 p. m. The evening program will include singing led by Liles, scripture by Queen, a special presentation by Wimpee, and a color movie, "Brotherhood Makes a Difference," to be shown at 7:20 p. m.

Special music to be arranged by Liles will be presented at 7:50 p. m., and Dr. Morgan will preach the closing sermon at 7:55 p. m. McDonald will preside at the afternoon session and Graham will be in charge of the evening program.

## Nazarene Missionary Group Studies Africa

Hamlin Nazarene Church will have its monthly Missionary Society meeting this (Wednesday) evening, July 29, at 7:30, it is announced by the pastor, Rev. R. T. Jarrell.

Lee Romines, president of the society, will be in charge. The public is invited to attend this meeting. Groups for all ages will be studying the work of the church in South Africa.

## Cattle Group Leader Urges Stable Market To Avoid Price Drop

Commercial supplies of beef were up one per cent during the first four months of 1959, despite a 6.5 per cent drop in the number of beef cattle marketed, Herrell DeGraff, head of the cattle industry's fact finding committee, reported to the mid-year meeting of the American National Cattle-men's Association.

Norman Moser, president, and Charles A. Stewart, secretary-general manager of the Texas and Southwestern Cattle Raisers Association, represented the 10,000

member cattlemen's group at the meeting, held in Denver.

Cattle averaged 44 pounds heavier this year than last and yielded a higher average dressed out percentage, DeGraff reported, because more fed cattle and fewer cows were marketed. Cattlemen have been holding cows and calves on the range, building up their herds, he said.

A price break is not inevitable if cattlemen market their herds wisely during the last half of 1959, DeGraff commented on the current rapid build-up of cattle numbers, which is in its second year since the end of the drought and still increasing.

## Tomato Cream Frosty Makes Fine Appetizer

The next time you entertain or want to give your family a real treat, serve tomato cream frosty as a meal appetizer. It's different and most delicious.

Combine one cup of tomato juice with two tablespoons of lemon juice and two tablespoons of sugar. Season the juice with salt and pepper according to your family's taste.

Add two cups of cold milk and blend with a blender or beater. Serve the drink immediately. For variety garnish with chopped parsley, chives or a sprinkle of nut-

There is no use going back looking for the lost opportunity. Someone else has found it.
